POLICY NOTIFICATION
<Insurance Policy Numbers on Reports>

This policy is being issued to clarify jurisdiction requirements for ensuring compliance with Article 7A of the Uniform Boiler and Pressure Vessel Act of North Carolina, 95-69.15(b), as outlined in the excerpt below;

“.... (b) Inspector's Commission. – Any company authorized to insure in this State against loss to person or property as a result of an explosion or accident involving boilers and pressure vessels or operating boilers or pressure vessels or both for its own use and not for resale, may apply for the issuance of an inspector's commission for an individual within its employ who has a commission from the National Board.

A North Carolina commission authorizes an inspector to make inspections on boilers and pressure vessels and report on the suitability of said boilers and pressure vessels to the Chief Inspector. Those inspectors holding commissions as special inspectors shall be limited to making inspections on boilers and pressure vessels insured by their employer. Owner-user inspectors shall be limited to conducting inspections on boilers and pressure vessels operated by their respective employers.....”

Effective January 1, 2020, all reports submitted by a “Special” (insurance) inspector must include the insurance policy number to which the inspector is working. This will provide the Boiler Safety Bureau with an auditable data point for any future compliance concerns.

Don Kinney
Chief Inspector
